PHOCUS (Academic Year: 2021- 2022) Report

EPSF-FUE

VISION

Freeing up the pharmacist role not to be restricted on dispensing functions only and shedding light on direct patient care for treatment decisions incorporation as a member of health care team.

MISSION

Investing in pharmacy students' education and widening their knowledge to increase the public awareness and focus on perception of the pharmacy profession and the importance of clinical pharmacy services.

Details

The conference was created to provide pharmacy students with education about the important role of pharmacist, in clinical pharmacy field (Clinical Oncology Pharmacy) and to bring pharmacy students up to date with the newest treatment methods for lung and breast cancer.

Before the event, in Faculty of Pharmacy campus, a promotion for PHocus was held on 17th of May 2022. The benefit outcomes of the conference was explained to pharmacy students, under the supervision of (Dr. Asmaa Mandour), the President (Bahaa Turks) and pharmacy education chairperson (Ibrahim Sabry). Brochures were distributed and online registration for the conference was available. Also, online promotion for the event was carried out previously on 8th & 12th of May 2022.
